Dr. Dustin Volkmer Receives Sports Medicine Subspecialty Certification

For Immediate Release

(COLUMBUS, Neb.) – Dustin Volkmer, MD, recently received his sports medicine subspecialty certification from the American Board of Orthopaedic Surgery. Dr. Volkmer is the director of sports medicine with Columbus Community Hospital and the Columbus Orthopedic & Sports Medicine Clinic.

In order to receive this certification, Dr. Volkmer had to pass a one-time written exam administered by the American Board of Orthopaedic Surgery. He passed the exam this month.

“I received this certification to ensure that patients are receiving the highest quality sports medicine care possible, and to demonstrate a commitment to staying on the cutting edge of the field of sports medicine,” Dr. Volkmer said.

Dr. Volkmer is the only certified orthopedic sports medicine specialist in northeast Nebraska.

Cori Fullner, practice manager for Columbus Orthopedic & Sports Medicine Clinic and the Columbus Concussion Management Clinic, said Dr. Volkmer’s new subspecialty enhances his existing orthopedic and sports medicine practice.

“It just goes to show the dedication that he has to continue to learn and to provide the newest, highest quality of care,” she said. “The close relationships that Dr. Volkmer has with the area schools, athletic trainers and the athletes is amazing. Our community is blessed to have the wonderful providers we have in the Columbus Orthopedic & Sports Medicine Clinic.”

In addition to Dr. Volkmer, the Columbus Orthopedic & Sports Medicine Clinic offers the services of Richard R. Cimpl, MD; Michael H. McGuire, MD; Edward V. Fehring, MD; Shawn R. Brandenburg, DO; Brandon L. Borer, DPM; Kelli K. Thomazin, PA-C and Kendra A. Thiem, PA-C.

“Without a doubt, each of our physicians and physician assistants provide excellent, personalized care to each and every patient who comes through our door,” Fullner said.
