### **Learn how to change the safety culture in the workplace**

For Immediate Release

**(COLUMBUS, Neb.)** – Columbus Community Hospital's Occupational Health Services is hosting a free Lunch & Learn event from noon-1 p.m. Thursday, March 31, in the Platte and Prairie rooms of the hospital's first-floor conference center. The event will feature Bryce Wendland, CSP, CHMM, a safety and environment systems and project manager for Schneider Electric North America.

Listen as Wendland shares the stories of three people who experienced life-changing events at work. Hear how lack of actions from other employees and those around them changed lives — forever. At the end of the presentation, Wendland will challenge attendees to make changes in their lives and encourage those around them to do the same.

Attendees can enjoy a complimentary lunch at 11:45 a.m.; they must register for the event by Monday, March 28. For more information or to register for the event, contact Ileana Jarecki at 402-562-4490 or [imjarecki@columbushosp.org](mailto:imjarecki@columbushosp.org).
